

## .NET Developer

HaulTech are looking to recruit a full-time .NET developer to join the Innovation team who are at the forefront of building our next generation solutions. This role is ideal for an ambitious and enthusiastic candidate who wants to progress their career as our business grows and help innovate, enhance, design, and build new products with the latest technology. We work collaboratively and require incredible attention to detail. We are not scared to try new things... if it doesn't exist, build it!

If you want to join a relaxed and friendly company, then we want to see your CV (don't be afraid to send a portfolio if you have one).

Apply with your CV to [jobs@haultech.co.uk](mailto:jobs@haultech.co.uk) for the attention of the Technical Manager.

## Technical Skills

### Required

- Designing and developing Visual C# applications (primarily .NET Standard and ASP.NET)
- Strong knowledge of developing and integrating with WebAPI and RESTful web services
- Familiar with MS SQL and NoSQL development and administration

### Desired

- Familiar HTML5, CSS3, JS front-end applications (primarily NodeJS, Pug, and Angular)
- Working knowledge of Git version control
- Knowledge of application attack surfaces and security hardening
- Writing unit and integration tests

### Advantageous

- Competent using Visual Studio and Visual Studio Code
- Experience working with hardware infrastructure (servers, networking, etc.)
- Knowledge of haulage industry (specifically traffic management and warehousing)

## Personal Skills

- Excellent communication and comfortable asking for help
- Outstanding attention to detail
- Efficient and calm under pressure
- Multi-task without compromising quality
- Approachable and capable of working solo or part of a team
- Able to mentor peers

## Further Information

- Competitive Salary
- Based at our Newcastle-under-Lyme office
- Relaxed and casual work environment
- Small and dynamic business
- Remote working where applicable
- Access to best-in-class online training materials
- All the tea and coffee you can drink
